KIDS SUPERGYM - MISSISSAUGA is fitness with a smile. Our skill based facility was constructed for the purpose of challenging children in a creative, fun and safe environment. Our NCCP trained Coaches believe kids need to be active and interactive with their peers. We intend to do this through our specially designed gymnastics programs. All of our programs consist of the use of our equipment such as the trampoline, parallel bars, balance beam, rings and sprung floor.

BounceFit (8 yrs.+)

This new program is designed for youth aged 8 years and up. The goal is to encourage kids to be active while using various types of "bounce equipment" (trampoline, fast track, rod floor) and get some fitness while having fun. Trampoline skills (from basic through to advanced) will be taught through progressions by N.C.C.P. trained coaching staff. Strength, flexibility, endurance and coordination training will be incorporated into this program.

PLEASE TURN OVER FOR ADDITIONAL INFORMATION AND REGISTRATION INSTRUCTIONS
